The Origins of Angel Numbers and Doreen Virtue

Doreen Virtue is widely recognized as one of the pioneers in bringing angel numerology to a global audience. A former psychotherapist turned spiritual teacher, she authored numerous books on angels, chakras, and divine guidance, introducing millions to the concept that numbers are a common language through which guardian angels communicate. Her work emphasizes that angel numbers are not random digital artifacts but intentional, loving signals meant to guide, reassure, and inspire. The number 303, in particular, features prominently in her writings as a sequence that encourages individuals to trust their creative intuition and step into their authentic expression.

According to Virtue, when you see a number like 303 repeatedly, your angels are trying to capture your attention. They are bridging the gap between the physical and spiritual worlds, offering you clarity, encouragement, and sometimes gentle redirection. Her teachings highlight that each digit within an angel number carries its own energetic vibration, and the combination creates a unique message tailored to your current life circumstances.
