Understanding the Blumberg P 193 Sublease Agreement Form: A Complete Guide

Subleasing a property can be a practical solution for tenants who need to relocate temporarily, reduce their rental expenses, or fill a vacancy in a shared living arrangement. However, the process of subleasing involves legal complexities that require careful documentation. One of the most trusted tools for navigating this process in New York is the **Blumberg P 193 Sublease Agreement Form**. This standardized document provides a clear framework for sublessors and subtenants, ensuring that both parties understand their rights and obligations. In this comprehensive guide, we will explore the essential aspects of the Blumberg P 193 Sublease Agreement Form, including its structure, key clauses, legal implications, and practical tips for completion.

What Is the Blumberg P 193 Sublease Agreement Form?

The Blumberg P 193 Sublease Agreement Form is a legally recognized document published by Blumberg Excelsior, a leading provider of legal and business forms in the United States. Blumberg forms are widely used in New York and other jurisdictions for real estate transactions, corporate filings, and rental agreements. The P 193 form is specifically designed for subleasing residential or commercial property when the original tenant (the sublessor) wishes to rent out all or part of the premises to another person (the subtenant) for a defined period.

Unlike a standard lease agreement, a sublease agreement implies that the original tenant remains ultimately responsible to the landlord for all terms of the master lease. The Blumberg P 193 form addresses this dynamic by including provisions that protect the interests of all parties while remaining consistent with the obligations outlined in the original lease.

Key Features of the Blumberg P 193 Form

The Blumberg P 193 Sublease Agreement Form includes several important sections that cover the essential elements of a sublease transaction. These features make it a reliable choice for tenants and subtenants alike.

- Identification of Parties – The form clearly identifies the sublessor (original tenant) and the subtenant, along with their contact information and any guarantors involved.
- Description of Premises – It includes a detailed description of the property being subleased, including the address, apartment or unit number, and any specific areas or amenities included in the sublease.
- Term of Sublease – The form specifies the start and end dates of the sublease, which must fall within the term of the master lease unless the landlord consents otherwise.
- Rent and Payment Terms – The amount of rent, due date, acceptable payment methods, and any late fees or penalties are clearly outlined in this section.
- Security Deposit Provisions – The form addresses how the security deposit will be handled, including the

amount, conditions for return, and any transfer of the deposit from the sublessor to the subtenant.

- Incorporation of Master Lease Terms – A critical feature of the Blumberg P 193 form is that it incorporates the terms of the master lease by reference, ensuring that the subtenant agrees to comply with the same rules and restrictions that apply to the sublessor.
- Signatures and Notarization – The document includes spaces for signatures from both parties and often requires notarization to add a layer of legal authenticity.

Why Use the Blumberg P 193 Sublease Agreement Form?

Using a standardized form like the Blumberg P 193 offers several advantages over drafting a sublease agreement from scratch or using an informal template. Legal professionals and experienced tenants often recommend this form for its reliability and comprehensiveness.

Legal Compliance and Clarity

One of the primary reasons to choose the Blumberg P 193 form is its alignment with New York real estate law. The form has been reviewed by legal experts and is regularly updated to reflect changes in legislation. This reduces the risk of including unenforceable clauses that could lead to disputes or litigation. Additionally, the structured format minimizes ambiguity, ensuring that both parties have a clear understanding of their responsibilities.

Protection for the Original Tenant

As a sublessor, you remain liable to your landlord for everything that happens in the property, even if a subtenant causes damage or violates lease terms. The Blumberg P 193 form explicitly states that the subtenant must comply with all master lease provisions, which helps you enforce those rules. It also includes clauses that allow you to take appropriate action if the subtenant fails to pay rent or breaches any terms, such as termination of the sublease or eviction proceedings.

Professional Presentation

Presenting a professionally formatted agreement to a potential subtenant conveys seriousness and helps establish trust. The Blumberg P 193 form looks official and complete, which can encourage the subtenant to treat the arrangement with the same level of respect they would give a direct lease with a landlord. This can reduce the likelihood of misunderstandings or casual disregard for the rules.

Key Components of the Blumberg P 193 Form Explained

To fill out the Blumberg P 193 Sublease Agreement Form correctly, you need to understand each section and its implications. Let us break down the most important components in detail.

The Sublessor and Subtenant Information

The first section requires the full legal names of both parties, along with their addresses and contact details. If there is a guarantor involved, such as a parent or employer who will guarantee the subtenant's rent payments, their information must also be included here. It is essential to verify that the subtenant's name matches their government-issued identification to avoid any issues with enforcement later.

The Premises

This section describes the property being subleased. You should include the complete address, apartment number, and any specific parts of the property that are included, such as a parking space, storage unit, or access to common areas. If you are subleasing only a portion of the property, such as one bedroom in a two-bedroom apartment, be very specific about which areas are exclusive to the subtenant and which are shared.

Term and Possession

The term of the sublease must be clearly defined with exact start and end dates. It is important to note that the sublease cannot extend beyond the term of your own master lease unless you have obtained written consent from the landlord. The form also includes a provision regarding possession, which states that the subtenant will be entitled to occupy the premises on the start date. If the property is not ready due to circumstances beyond your control, the form typically outlines the remedies available to the subtenant, such as rent abatement or termination of the agreement.

Rent and Additional Charges

This section specifies the monthly rent amount, the due date, and the method of payment. You may also include provisions for late fees, returned check charges, and any other charges such as utilities or maintenance fees. If you are charging the subtenant a different amount than what you pay under the master lease, that is generally allowed, provided you are not violating any terms in your own lease regarding subleasing for profit. However, be transparent with the subtenant about any markup to avoid disputes.

Security Deposit

The handling of the security deposit is often a point of confusion in sublease arrangements. The Blumberg P 193 form offers several options. You can either transfer the existing security deposit from the master lease to the subtenant, collect a separate deposit, or arrange for the subtenant to provide a deposit directly to you. The form requires you to specify how the deposit will be held and the conditions under which it will be returned. In New York, security deposits are subject to specific legal requirements, including interest accrual on deposits held for more than a certain period, so be sure to comply with those rules.

Incorporation of Master Lease Terms

One of the most critical aspects of the Blumberg P 193 form is the clause that incorporates the master lease by reference. This means that the subtenant agrees to be bound by all the terms and conditions of your original lease, including rules about pets, guests, noise, maintenance, and any restrictions on use of the property. It is advisable to provide the subtenant with a copy of the master lease before they sign the sublease agreement so there are no surprises later.

Default and Remedies

The form includes provisions that outline what constitutes a default by either party, such as failure to pay rent, violation of lease terms, or abandonment of the premises. It also specifies the remedies available, including termination of the sublease, eviction, and recovery of damages. As a sublessor, you have the right to take legal action against the subtenant, but you must follow the procedures outlined in the agreement and comply with applicable landlord-tenant laws.

How to Complete the Blumberg P 193 Sublease Agreement Form

Filling out the Blumberg P 193 form is straightforward if you take a methodical approach. Here is a step-by-step guide to ensure you complete it accurately.

1. Gather necessary documents – Have your master lease, identification documents, and any correspondence with your landlord regarding sublease permission ready.
2. Obtain landlord consent – Before you even begin filling out the form, confirm that your lease permits subleasing and obtain written consent from your landlord if required. Many leases contain a clause that prohibits subleasing without prior approval, and violating this could result in eviction.
3. Fill in the parties and premises – Complete the sections for sublessor, subtenant, and property details. Double-check the address and any specific descriptions.
4. Specify the term – Enter the exact start and end dates. Ensure they fall within the term of your master lease.
5. Set the rent and deposit terms – Clearly state the rent amount, due date, and how the security deposit will be handled. Choose the appropriate option for the deposit transfer.

6. Attach the master lease – The form should be executed together with a copy of the master lease. Some versions of the Blumberg P 193 include an exhibit for this purpose.

7. Review and sign – Both parties should read the entire agreement carefully. If everything is correct, sign and date the form. Notarization is recommended and may be required depending on the jurisdiction.

8. Distribute copies – Provide signed copies to the subtenant, your landlord if requested, and keep one for your records.

Legal Considerations When Using the Blumberg P 193 Form

While the Blumberg P 193 Sublease Agreement Form is a robust legal document, it is not a substitute for professional legal advice. Here are some important legal considerations to keep in mind.

Landlord Consent

Most standard lease agreements in New York require the landlord's written consent before any sublease arrangement can take effect. Even if your lease is silent on the matter, it is prudent to inform your landlord and obtain their approval. Failure to do so could expose you to liability for breach of contract. Some landlords may withhold consent only under specific circumstances, such as if the proposed subtenant has poor credit or a history of evictions. The Blumberg P 193 form typically includes a space for the landlord to acknowledge or consent to the sublease, which adds an extra layer of protection.

Rent Control and Rent Stabilization

If the property is subject to rent control or rent stabilization laws in New York, subleasing may be more complex. These laws often impose limits on the amount of rent that can be charged to a subtenant and may require the landlord's approval for any sublease. The Blumberg P 193 form does not automatically address these specific regulations, so you should consult with a real estate attorney or tenant advocacy organization if your apartment falls under rent regulation.

Eviction Protections

Subtenants are generally entitled to the same eviction protections as any other tenant under state law. If you need to remove a subtenant for nonpayment or other lease violations, you must follow the proper legal eviction process, which typically involves serving a notice to cure or quit and then filing a holdover proceeding in housing court. The Blumberg P 193 form does not give you the right to forcibly remove a subtenant without due process, so be prepared to follow the law.
