Introduction: Why a List of Barbie Movies in Order Matters

Since her debut in 1959, Barbie has been much more than a doll; she has become a cultural icon who empowers children to imagine endless possibilities. One of the most beloved extensions of the Barbie brand is the animated movie series, which began in 2001 with **Barbie in the Nutcracker**. These films have sparked imaginations, taught life lessons, and provided wholesome entertainment for over two decades. Whether you are a parent looking to introduce these classics to a new generation, a collector cataloging every release, or a fan revisiting childhood favorites, having a complete and accurate **list of Barbie movies in order** is essential. This guide presents every official Barbie feature film chronologically, along with brief descriptions and key details to help you navigate this enchanting cinematic universe. By the end, you will have a clear roadmap from the earliest computer-animated adventures to the modern, high-grossing **Barbie** live-action phenomenon.

The Beginnings: 2001–2005
