Michael Jackson Interview With Barbara Walters: A Revealing Moment in Pop History

The **Michael Jackson interview with Barbara Walters** remains one of the most watched and discussed celebrity interviews of all time. Broadcast in two parts in 1997 on ABC's *20/20*, the conversation between the King of Pop and the veteran journalist offered millions of viewers a rare, intimate look into the mind of a global icon who was both loved and misunderstood. For many fans and critics, this sit-down was a pivotal moment that shaped public perception of Jackson in the latter half of his career. It was a masterclass in how a carefully managed star could simultaneously reveal vulnerability and maintain control of his narrative. In this article, we will explore the context, key moments, emotional depth, and lasting legacy of the **Michael Jackson interview with Barbara Walters**.

Setting the Stage: Why 1997?

By 1997, Michael Jackson had weathered significant personal and professional storms. He had recently settled a 1993 civil lawsuit, and his marriage to Lisa Marie Presley had ended in divorce. He was also a new father, raising his first child, Prince Michael Jackson Jr., and he was preparing to release his latest album, *Blood on the Dance Floor: HIStory in the Mix*. The world was hungry for answers. Jackson, who had retreated from the press for years, decided to sit down with one of the most respected interviewers of the era, Barbara Walters. This was not a spontaneous decision; it was a calculated move to address the swirling rumors, humanize his image, and reintroduce himself to the public as a father and an artist. The **Michael Jackson interview with Barbara Walters** was thus framed as a "tell-all" event, promising unprecedented access to Neverland Ranch and his private life.

Key Themes and Revelations From the Interview

The interview covered a wide range of topics, from his childhood and his relationship with his father, Joseph Jackson, to his views on plastic surgery, his skin condition, and his role as a parent. Walters, known for her direct but empathetic style, asked the questions everyone wanted answered. Jackson, in turn, responded with a mix of playful charm, deep introspection, and occasional defensiveness.

One of the most discussed segments of the **Michael Jackson interview with Barbara Walters** was the conversation about his changing appearance. Jackson spoke openly about being diagnosed with vitiligo, a condition that causes loss of skin pigmentation. He explained that he was not trying to be white and that the condition was not something he had chosen. "I love my skin," he told Walters. This was a crucial moment because it allowed Jackson to directly address a topic that had been a source of public speculation and ridicule. He also discussed having rhinoplasty to help him breathe better for his performances, though he admitted to

having a "little" cosmetic surgery. This part of the interview humanized a topic that had previously been treated as tabloid fodder.

A significant portion of the interview focused on his role as a new father. Jackson was visibly emotional and happy when discussing his son, Prince. He described the joy of feeding him, playing with him, and watching him grow. He spoke about his desire to give his children a normal childhood, a stark contrast to the strict, often harsh upbringing he experienced. Walters asked about his parenting style, and Jackson said he wanted to be a "gentle parent." He also addressed the decision to dangle his son over a hotel balcony earlier that year, explaining that it was "a terrible mistake" and that he was just so excited to show his fans his child. This admission showed a rare moment of public regret.

Jackson spoke candidly about the immense pressure of being one of the most famous people on the planet. He described how difficult it was to go out in public and how he sometimes felt like a prisoner in his own home. He talked about the pain of reading negative stories about himself and the feeling of being misunderstood. The **Michael Jackson interview with Barbara Walters** painted a picture of a man who was deeply sensitive and hurt by the criticism, but who also possessed a remarkable resilience and a singular focus on his artistic mission. "I love people," he said, "and I want to heal the world."

The Emotional Highs and Lows

What made the **Michael Jackson interview with Barbara Walters** so compelling was the emotional rollercoaster Jackson took the audience on. At times, he was the playful, childlike star, laughing and showing off his pet chimp, Bubbles. At other times, he was somber, almost melancholy, when discussing his loneliness and the loss of his childhood. Walters skillfully navigated these shifts, allowing Jackson the space to be himself. The interview was not just a series of Q&A; it was a performance, but a genuine one. Jackson used his voice, his eyes, and his body language to convey his feelings, making the conversation feel raw and unrehearsed, even though it was clearly part of a larger public relations strategy.

Response and Public Reaction

The public reaction to the **Michael Jackson interview with Barbara Walters** was immediate and divided. Many fans felt it was a vindication, a chance for Jackson to finally tell his side of the story. They praised his honesty and vulnerability. Critics, however, pointed out that Jackson’s explanations were sometimes evasive and that he was still surrounded by an air of mystery. Some felt that Walters was too gentle with him, while others appreciated her respectful approach. Regardless of the divided opinions, the interview was a ratings juggernaut.
